(3598) **2.** **What specific aspects of your TA's teaching were most useful for your learning?**

The office hours were very helpful, breaking down the coding and concepts was really useful. Overall, one of the best TA's I've had at UCSB.

Very thorough. Really dedicated to making sure we understood the material and did well on our coursework.

Helped during office hours, had good info for us

(3597) **3.** **What specific suggestions would you like to offer the TA for improving their effectiveness, if any?**

None really, maybe clarify a bit more during sections how the writing portion of the concepts should be formatted.

Unfortunately, I have no suggestions. You're awesome, Denis!

I think slowing down a bit or providing the notes that are one your Problem Sets during section (like the comments on the R file when u present the section file) would help a lot for understanding some stuff we might be confused on during section!
